

Are you thinking about a career in teaching?

Internship Programme

What is it?

We are offering a new, four-week internship programme which incorporates a paid scheme for secondary Maths and physics undergraduates (£300 pw) and an unpaid scheme for all other secondary subjects and primary teaching. Our aim is to help undergraduates in all subjects explore how rewarding and challenging a career in teaching can be.

As part of the programme, interns will have the opportunity to get involved in all aspects of school life, including:

- Taking part in a bespoke training programme with other interns.
- Working closely with a mentor in a placement school to observe and teach lessons.
- Spending 2 days in alternative schools to experience different school cultures and age ranges.
- The chance to meet with NQTs and SCITT trainees to get their perspective on the realities of teacher training.

Why do it?

- To gain a true understanding of what a career in teaching involves.
- To receive high quality training from outstanding teachers in outstanding schools.
- To meet other interns in a similar position to you.
- To accelerate your interview process for our SCITT.
- To gain valuable and unique work experience for whatever you go on to do in the future, as well as a formal written reference from your mentor.

Are you thinking about a career in **teaching**?

Internship Programme

What do we need from our interns?

- We need you to commit to at least two weeks of the four-week programme. We would strongly encourage participation in the full four weeks, but understand this might not be possible for some students and we can be flexible.
- You will be given a Learning Journal to complete during the programme in which we will ask you to reflect on your training, what you have observed and your own teaching experiences; this is a key skill that all teachers need to apply to their practice every day.
- We want you to be inquisitive and interested. We will encourage you to ask plenty of questions and throw yourself into the life of your placement school.

Yes, I'm interested! What do I do now?

Send us an email and we will contact you to arrange a place on one of our interview days. This will involve observing a lesson, discussing your observations in a group reflection and a formal interview.

Interviews will be held at Salesian School, Chertsey on multiple dates. Get in touch for more information.

The 2020 programme will take place from the 15th June to the 10th July
